| PSY3062 Research methods and theory | 6cp | Prerequisites (PSY2011 and PSY2022) or alternatively (PSY2051, and at least two of PSY2031, PSY2042 OR PSY3041) |
| Nursing elective | | Refer to handbook |

***Clinical Experience**

Clinical experience makes up fifty percent of the Bachelor of Nursing course. Generally speaking, students on clinical experience will take on shift work, including weekend shifts and night duty and work a supervised unpaid 40 hour week. Attendance is mandatory for the clinical component of each unit. Make-up for time missed will be arranged in consultation with the clinical coordinator on receipt of a medical certificate. Where a student's skill or knowledge is found to be inadequate, access to the clinical component of the unit will be denied. A student may be withdrawn from a clinical practicum if required skills and knowledge are deemed inadequate, or on other grounds deemed appropriate by the head of school.
