ADD A NEW PREVIOUS MALIGNANCY

1. On the Patients screen, select the patient for which a new Previous Malignancy is to be created.

2. The Patient screen is displayed as follows:

3. Select the Previous Malignancies option to display the Previous Malignancies addition screen.
4. The user may now select a *New Site* from the drop down list.

5. To add the site, select the *Add* option.

6. The new previous malignancy site details will be displayed.

7. The user may add additional sites.

8. To log out, select the *Logout* option at the top right of the screen.
